Performance Test Report	
Environment : Production	**Portal Names: Internal Portal**
Client : tab66aud.com	
PREPARED BY :	
Name : Dhanuka Dulanjana	**Designation :** Software Quality Assurance Engineer
Signature :	**Date :** 21-November -2023

DOCUMENT REVISION HISTORY:			
Version No.	**Date**	**Description**	**Author (name)**
1.0	21-November -2023	Performance Test Result - Phase 1	Dhanuka Dulanjana

Tested Environment and Pre-requisites:

Software

| Name	Details
Jmeter	v5.5
Grafana	v9.0.2
InfluxDB	v 1.8.0

Execution Results

1. Test Scenario: 20 Users–Log In and Play a game

### 1.1 20 Users –3 Minutes (Failed)

Execution Time Duration: 3 Minutes
No of Users:- 20

[Figure 1.11 – Thread Group Details]

Figure 1.11 refers to how 25 concurrent users stayed in the system during the 3-minute execution time period.

[Figure 1.1 – Response Time vs Time]

According to Figure 1.1 Response time is high for Selecting Game Scenario. To reduce the response time, Need to check Queries behind the Selecting Game Scenario and optimize it.
